The Complete Data Science Journey:
Learn, Analyze, Predict and Deploy

session #25

Module #5: Advanced Analytics & Deployment

Student Final Presentations &

Bootcamp Wrap-Up

Instructor: (Mr.) Sokunthaneth CHHOY

Welcome & Objectives

- Celebrate student achievements

- Showcase and review final projects

- Reflect on your learning journey

- Explore what's next after bootcamp

Presentation Format

Each team presents:

- Problem & Dataset

- Methods & Models

- Insights & Visualizations

- Impact & Deployment

- Time: 7–8 mins per team

Presentation Order

- Team 1 - [Project Title]
- Team 2 - [Project Title]
- Team 3 - [Project Title]
- Team 4 - [Project Title]
- Team 5 - [Project Title]

Peer Review Guidelines

Give feedback using:

- What was strong?

- What could be improved?

- Ask 1 meaningful question

Reflect on Your Journey

Think about:

- A skill you're proud of

- A project you enjoyed most

- A mistake you learned from

- A goal after this bootcamp

What's Next?

Keep Growing:

- Build your portfolio on GitHub

- Compete on Kaggle

- Engage with LinkedIn/Data Science groups

- Practice interviews & case studies

Thank You!

You've completed the Data Science Bootcamp!

Proud of your journey — now go build something great.

Let's take a group photo!
